CONSORTIUM DISCOUNTS

We leverage the buying power of the entire MOREnet Consortium to negotiate deep discounts directly from vendors on the products and services that have been requested by members or industry leaders. All of the items listed here are direct-from-vendor services where we have negotiated an exclusive MOREnet consortium price.

Network Security & Data Privacy

Network Security

In addition to the many products managed and sold by MOREnet, these consortium discount opportunities allow you to ensure your network and devices are secure.

SecureIdeas℠   CROWDSTRIKE

Content Filtering & Digital Safeguarding

Protect your users through content filtering, safety management and emergency alerts.

gaggle

Blocksi   Lightspeed Digital Insight™

Unlike the products that include advice and help desk support from our MOREnet subject matter experts, these products have been given a very quick review, with our time spent negotiating the pricing and process on your behalf. MOREnet is not involved in the servicing or implementation of the products or services. Please review each vendor's terms and conditions for complete details. Feedback from our members about third-party discounts is always welcome.

Network Services

Backup & Archiving

Archive social media and organizational documents simply and securely.

gaggle

Pagefreezer

Hardware

HigherEd members can take advantage of pre-negotiated contract pricing on CDW-G hardware and software.

CDW·G

Manage security needs efficiently through video surveillance, access control and sensors.

rhombus

Device Management

Control how mobile devices are used and managed.
