

# Student connectivity funding for libraries.

- **Library Services and Technology Act.** The American Rescue Plan Act (ARPA) allocates \$200 million to the Institute of Museum and Library Services (IMLS). \$178 million of this funding will go towards the Library Services and Technology Act for state library administrative agencies and will be distributed using a population-based formula.
- **Emergency Education Connectivity Fund.** In addition to the IMLS funding, ARPA also includes \$7.2 billion for an Emergency Education Connectivity Fund through the FCC E-Rate program. This program will allow participating libraries to receive 100% reimbursement for the purchase of WiFi hotspots, laptops, and routers to help patrons access the Internet.
- **Kajeet Connectivity Solutions for Libraries.** Kajeet Student Connectivity Solutions are eligible for these sources of new ARPA funding!

Kajeet is a leading provider of **secure wireless connectivity solutions for education.** Support digital equity and inclusion for students in your library's community by rolling out a lending Kajeet WiFi hotspot lending program.
